

Exhibit No. _____

Compilation of Statistical Data
As Requested by

**Dairy Farmers of America, Inc. and
Michigan Milk Producers Association**

Prepared for Public Hearing
Docket No. AO-166-A72; DA-05-01
Wooster, Ohio
March 7, 2005

Prepared by Mideast Market Administrator's Office

February 2, 2005

**David Z. Walker
Market Administrator
Mideast Federal Order No. 33
1325 Industrial Parkway North
Brunswick OH, 44212**

Dear Mr. Walker:

Dairy Farmers of America and Michigan Milk Producers Association are requesting the following information for the upcoming Mideast Federal Order Hearing:

- 1. A table showing the sources of milk pooled on Order 33 by state, by month for calendar years 2000 to date, and by state & county for December of each year.**
- 2. For the states of Illinois, Iowa, Minnesota, Wisconsin and Vermont – for the months of August 2003 to date the pounds of milk pooled and an estimate of the impact of those pounds on the PPD of Order 33.**
- 3. For the states of Illinois, Iowa, Minnesota and Wisconsin for the months of August – November of 2004 the producer receipts that actually delivered to an Order 33 pool distributing plant and the total pounds actually pooled from those deliveries.**
- 4. A table showing milk pooled each month on Order 32 as a percentage of milk pooled the preceding month, by month for the period January 2000 to date.**
- 5. For each month of 2003 and 2004 and 2005, a table showing the pounds of milk voluntarily depooled on the Mideast Order and the estimated impact on the PPD.**
- 6. For the month of October 2004:**
 - A. In increments of 20 mile zones the pounds of in area producer milk that delivered to pool distributing plants in Order 33. Include the percent of total and a cumulative percentage for each entry.**
 - B. The same information as in A but expand the source to include all deliveries not only in area deliveries.**
- 7. Segregate the market in to sales regions generally representing Northern Ohio, Southern Ohio, Michigan, Indiana and Pennsylvania. List the handlers in each region, the counties that make up the defined region, the total in area production for each region and the aggregate Class I sales for that region. Then**

detail the producer milk to pool distributing plants by the same mileage zones as in question 6.

- 8. Map the data detailed in request 7. On the map list the handlers that makeup the "sales region", the total pounds of in area production for each region, the aggregate Class I sales for the region**
- 9. A map of the Mideast Federal Order showing the location of all distributing plants, supply plants, partially regulated plants, exempt plants, producer handlers, the marketing area and the milk shed for May and December 2004.**
- 10. A map of the Marketing area and the differentials by county.**
- 11. The percentage of milk diverted to non pool plants by month for 2004 segregated by a cooperative pooling report and a distributing plant report.**
- 12. A table showing an estimate of the 115% depooling limit on a decision to maximize the pounds depooled and repooled with a three-month time lag.**
- 13. A matrix showing the 2003 and 2004 pounds of milk that was transported from supply plants to distributing plants that traveled in increments of 100 / 200 / 300 / 400 / 500 one way miles. We would prefer a monthly aggregation but if confidentiality is a problem then a "greater than monthly" aggregation is acceptable.**
- 14. A table showing the net Class I contribution to the pool. This value would be represented by the Class I value paid by the Class I buyer less the dollars paid to producers by handlers on this same volume of milk, (the handler value less the producer value at actual components). This data is requested by month for the period January 2000 to date.**
- 15. For the month of October 2004 prepare a table showing the effect of a proposed transportation credit (as proposed by DFA & MMPA) on the five supply regions outlined in question 7 with mileage limits of no payment on the first 70, 100 and 125 miles and no payments on mileages over 350 and 400 miles. Use \$.003, \$.0035 and \$.004 as rates. Show the total dollars generated by the calculation and the cents per hundredweight on the pool for the month.**
- 16. For the month of October 2004 show the pounds of producer milk from each zone of origination to the zone of delivery.**
- 17. For the month of October 2004 show the average hauling distance associated with the deliveries of producer milk in question 16.**

- 18. For the month of October 2004 show in twenty-mile increments, the pounds delivered to the five supply regions and the average hauling distance for each region.**
- 19. A sample computation of how the Market Administrator would process the transportation credit (as described in proposal XX).**
- 20. For use in the proposal dealing with producer handlers:**

I would like to request the following data series be developed for each the Mideast Order.

- 1) For the Mideast Order - a recap of the volume of Class I marketing's of producer handlers and the percentage of the market's Class I utilization held by producer handlers in total;**
- 2) For the Mideast Order - the average and median sized producer handlers total Class I marketing's;**
- 3) For the Mideast Order - divide the population of producer handlers into three groups of smallest size, middle size and largest size and provide the percentage of the total markets Class I utilization held by producer handlers in each group; if three groupings are not possible then use only two groupings;**
- 4) For the Mideast Order - a recap of the volume of Class I marketing's of part 7(a) plants and the percentage of the market's Class I utilization held by part 7(a) plants in total;**
- 5) For the Mideast Order - a the average and median sized 7(a) plants total Class I marketing's;**
- 6) For the Mideast Order - divide the population of 7A plants into three groups of smallest size, middle size and largest size and provide the percentage of the total markets Class I utilization held by 7 (a) plants in each group; if three groupings are not possible then use only two groupings;**

The attached Excel spreadsheet contains the form in which I would like the data to be presented recorded. I would like data based on October 2004.

If the number of producer handlers in an Order makes compilation of any of this data proprietary, please aggregate in the least manner possible to answer the question.

We appreciate your assistance in compiling this information.

Sincerely,

**Elvin Hollon
Dairy Farmer of America**

[Received from Elvin Hollon via email with the above document]

I also realize that I forgot a request:

21) For the month of October 2004, estimate the PPD impact of the reduction in diversion percentages as requested in proposal XX. (the 10 % across the board cut)

**Maximum Depooling Calculation to Ensure
Full Repooling within Three Months with 115% Repooling Limitation**

Assuming 100 pounds, handler could depool approximately one-third or 34 pounds:

Depooling Month	$100 - 34 =$	66
Month 1	$66 \times 115\% =$	76
Month 2	$76 \times 115\% =$	87
Month 3	$87 \times 115\% =$	100

Pounds of Milk Transported by Supply Plants to Distributing Plants

Sample Computation of Mideast Transportation Credit

Receiving Pool Plant:	Name	Cleveland Dairy
	Location	Cleveland, OH
Responsible Handler		DFA - Mideast

line #	1/04/05	1/16/05	1/19/05	1/28/05
1 Date of Receipt	#00296	#LOL22576	#00362	#00569
2 Load Identification	Jackson, MI	Fond du Lac, WI	Wooster, OH	Millersburg, OH
3 County Seat of Nearest Farm on Load				
4 Load Weight (pounds)	42,000	45,000	28,000	32,000
5 Class I Utilization at Plant of Receipt	87.52%	87.52%	87.52%	87.52%
6 Eligible Volume: multiply lines 4 and 5	36,758	39,384	24,506	28,006
7 Distance: Nearest Producer & Plant of Receipt	350	550	60	100
8 Lesser of line 7 and 400	350	400	60	100
9 Adjusted Miles: line 8 less 75	275	325	0	25
10 Rate	\$0.004	\$0.004	\$0.004	\$0.004
11 Gross T.C. Rate: multiple line 9 and 10	\$1.10	\$1.30	0	\$0.10
12 Zone Differential of Receiving Plant	\$2.00	\$2.00	\$2.00	\$2.00
13 Zone Differential of Line 3	\$1.80	\$1.75	\$2.00	\$2.10
14 Zone Adjustment: positive difference line 12 less line 13	\$0.20	\$0.25	0	0
15 Transportation Credit Rate: Positive difference lines 11 less 14	\$0.90	\$1.05	0	\$0.10
16 Transportation Credit: multiply lines 6 & 15/100	\$330.83	\$413.53	\$0.00	\$28.01

Recap of Plant Data for Mideast Producer Handlers and Pool Distributing Plants

October 2004

	Producer Handlers	7(a) Distributing Plants
Number of Plants in Mideast Order	12	41
Percentage of Market's Class I	0.36%	89.93%
Average Class I Volume	179,564	12,953,102
Average Class I Volume for Median Sized Handler	69,665	12,193,523
Average Class I Volume for Smallest 1/3 Grouping	30,947	2,359,490
Average Class I Volume for Middle 1/3 Grouping	62,941	12,100,504
Average Class I Volume for Largest 1/3 Grouping	444,805	23,642,626
Percentage of Market's Class I Volume Held by Smallest Group	0.02%	5.19%
Percentage of Market's Class I Volume Held by Middle Group	0.04%	28.69%
Percentage of Market's Class I Volume Held by Largest Group	0.30%	56.05%

Prepared by Mideast Market Administrator's Office

**Estimated Impact on PPD of 10 Percent Reduction in Diversion Limitations
October 2004**

Pooled Pounds	Estimated Overdiverted Pounds @ 50% Limitation	Adjusted Pooled Pounds	<u>Producer Price Differential</u>		
			As Pooled	Adjusted	Change
1,545,776,665	63,800,000	1,481,976,665	\$0.73	\$0.75	\$0.02
